

# FEEL THE QUALITY.

Introducing a new family of **ELECTRICAL TAPES** from Shurtape®

# TRUST THE PERFORMANCE.

Engineered to meet and exceed your expectations for quality and performance in a range of electrical and mechanical applications, these tapes deliver — right down to the wire.

## EV 57 Black and Colors

General purpose grade, 7.0 mil, UL Listed and CSA Approved electrical tapes for use in a variety of mechanical and electrical applications, including color-coding and phasing applications.

## EV 77 Black and Colors

Professional grade, 7.0 mil, UL Listed and CSA Approved electrical tapes for all-weather insulating and splicing applications, as well as for color-coding and phasing tasks; constructed with a specialized PVC backing that contractors demand.

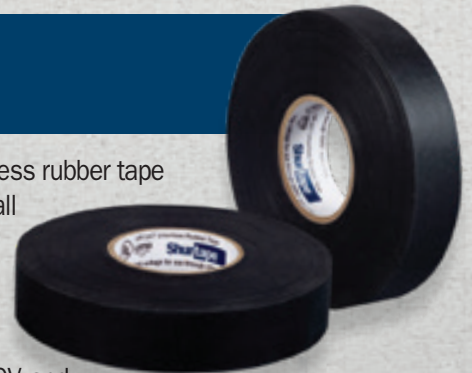

## EV 97 Black

Premium grade, 8.5 mil, UL Listed and CSA Approved, all-weather vinyl insulating tape used for insulating electrical splices up to 600V, as a jacketing on high voltage splices and repairs, and can also be used when wrapping wire harnesses and cables.

## LR 117 Black

30 mil, all-weather linerless rubber tape that is compatible with all extruded dielectric cable insulations, is rated for insulating splices and terminations in wires and cables up to 69,000V, and has an emergency overload capacity of 130 C.
