

Cover more applications with
the most versatile Weatherproof Covers
on the market

Intermatic.com

Our durable line-up of Die-cast and Plastic Weatherproof Covers offers long-lasting protection in all types of rugged applications: industrial, commercial, manufacturing, residential, and more! Time-saving features and resilient construction make these weatherproof covers the most versatile around.

STAY COMPLIANT 2014 NEC Code 406.9 (B1)

Intermatic Weatherproof Covers meet or exceed the latest NEC requirements for extra-duty applications and wet locations.

- For the 2014 NEC, all 15 and 20-ampere, 125 and 250 volt receptacles installed in a wet location still must have an enclosure and covers that are weatherproof whether an attachment plug cap is inserted or not.
- A revision now requires all enclosures and covers installed in wet locations for 15 and 20 ampere, 125 and 250 volt receptacles to be listed, and of the "extra duty" type, not just boxes supported from grade.
- This requirement is now also required at dwelling units as well. The requirement for weather-resistant type receptacles in wet locations is still applicable in the 2014 NEC. This change also provoked changes at 590.4(D)(2) for extra duty covers for all 15 and 20 ampere, 125 and 250 volt receptacles installed at temporary installations in a wet location.
- Exceeds the CEC Rule 26-702.

Features

UL, CSA Listed, NEMA 3R, 2014 NEC® 406.9 (B1) Compliant, and CEC Rule 26-702

Extra-Duty Die-Cast Aluminum

Extra-Duty Plastic

Keyhole slots and adhered gaskets make installs quick and easy

Comprehensive range of sizes accommodates 2-1/4" single gang up to 30/50 Amp double gang installations (4-3/4" depth)

Single gang covers mount vertically or horizontally

All covers come with Flexi-Guard Inserts, see page 7.

WP5000 Extra-Duty Plastic Series

Extra-Duty Plastic Weatherproof Covers are easy to install and shipped with an adhered gasket, mounting screws, base, cover assembly, and inserts for a variety of applications.

FEATURES

- Complies with 2014 Article 406.9(B)(1) for wet locations and extra-duty applications
- Meets requirements for cold impact testing: -60° F (-51° C)
- 5000, 5100, 5200 Series available in 10 different colors
- 5500 Series available in Clear, Gray, and Yellow
- Heavy-duty UV stabilized polycarbonate construction ensures long-lasting durability
- Lockable hasp: All models accept up to 0.25" dia shank
- Impact rated: 12 lb impact test to ensure cover remains intact
- Single gang covers mount vertically or horizontally
- Single Gang Models:
 - 3 inserts provided with all models that allow each model to meet multiple installations (up to 16 configurations)
- Double Gang Models:
 - 6 inserts provided with all models that allow each model to meet multiple installations (up to 70 configurations)
 - 2 round inserts accommodate from 1.375" to 2.656" plugs for the 30/50 amp applications (4-3/4" depth)
- Reinforced hinge pin – designed to exceed 40 lb hinge hang/stress test

RATINGS

Cover:

UV stabilized polycarbonate
UL Certified for Type 3R

Outdoor Enclosures:

Single Gang:

Horizontal – 3 cord outlets 0.5" wide by 0.9" high
Vertical – 1 cord outlet 0.75" wide by 0.9" high

Double Gang:

– 1 cord outlet 1.50" wide by 1.25" high 30/50 amp
– 1 cord outlet 1.1" wide by 3.0" high

Mounting Base and Inserts:

UV stabilized polycarbonate

Gasket:

Neoprene – 1/8" (4.8 mm) thick with slits for mounting screws

Max Cord Size:

Single Gang – (2) 14 gauge or (1) 12 gauge
Double Gang – (2) 12 gauge or (1) 10 gauge
30/50 Amp Double Gang – (1) 6 gauge (3 wire ground)

Warranty: Limited 1 year
